## Talk to our care concierge today or visit [CVS.com/HealthHUB](https://www.cvs.com/HealthHUB) for more info!

We can send a summary of your visit to your primary care provider, with your permission.

**\*FOR HEALTH SERVICES:** CVS® HealthHUB™ services are available only in select stores, and the services offered may vary by location. See your CVS HealthHUB store for details. Pharmacy services provided by CVS Pharmacy, Inc. Clinical services within a CVS HealthHUB location provided by a MinuteClinic® nurse practitioner or physician associate except if otherwise indicated.

**\*FOR TELEHEALTH VISITS:** Available in select states for select conditions. Other restrictions apply. See [MinuteClinic.com/VideoVisit](https://www.minuteclinic.com/video-visit) for additional details.

**\*FOR SLEEP ASSESSMENT:** Sleep apnea assessment performed by a MinuteClinic® nurse practitioner or physician assistant. If appropriate, your MinuteClinic provider may prescribe a home sleep test to be provided by an independent third-party provider. Sleep test interpretation and diagnosis of sleep apnea is performed by an independent provider.

**\*FOR MEDICAL EQUIPMENT:** Medical equipment and supplies purchased without a prescription from the Home Health Care section of our website or in our store are not covered by Medicare. If you submit a claim to Medicare for those items, Medicare will not reimburse you for the purchase price. Other insurers' policies may vary and you should review your plan materials or contact your insurer prior to purchase if you plan to submit the purchase price for reimbursement.

**\*FOR PERSONAL SOUND AMPLIFIERS:** Personal sound amplifiers are not hearing aids and are not intended to compensate for, diagnose, cure or treat hearing loss or impairment. Personal sound amplifiers are intended to amplify environmental sound for non-hearing-impaired consumers in environments where watching or listening to soft sounds would be difficult for individuals without hearing loss.
